

BWI Resolutions

Adopted by BWI World Congress in Durban South Africa
on 01 December 2017

01. Conflict Zones

Submitted by: Nigeria and Kenya at the BWI Africa and Middle East Conference

Noting the continuous killing of workers and their leaders in various countries in the Africa MENA region due to terrorism, the Trade Unions at the BWI Africa and Middle East Conference condemn these actions perpetuated by Boko-Haram; Al Shabab; ISIS and many other terrorist groups hiding in the region.

Concerned by the suppression of workers' rights and continuous attack of workers' and human rights by police, increase of brutal attacks of workers including the plight of refugees and migrants in Africa, Middle East, Korea, Europe and other countries.

The BWI Affiliates in Africa and Middle East regional Conference have called upon the African Union and the United Nations to find an everlasting Peace to the many challenges on terrorism and conflicts in our Region.

WE CALL UPON CONGRESS and all affiliates to prioritize the Health and Safety of workers, and urge BWI to assist affected workers where possible and intensify refugee and migrant campaigns in those countries identified including during ILO, UN and other global organisations' meetings.
