

BWI Resolutions

Adopted by BWI World Congress in Durban South Africa
on 01 December 2017

25. Electrical Workers

**Submitted by: Global Power Trade Union
(moved by ETU Australia Allen Hick)**

This GPTU congress calls upon the Building Workers International to recognise the Power Unions and Electrical workers as one of the BWI sectors. Further, as we are members in several Global Union Federations we encourage all Global Union Federations to work together to recognise the Electrical sectors and co-operate with the steering committee of the GPTU network on Electrical issues.
